B. Discontinued Operations

As of March 31, 2013, the Company decided to discontinue business activities related to its "Certificate in Information Technology with a specialization in Smart Home Integration" program so that it may focus on growing its full-time, degree-seeking student programs, which have higher gross margins. On April 5, 2013, the Company gave 120-day notice to CLS 123, LLC of its intent to terminate the agreement between the Company and CLS 123, LLC dated November 9, 2011. Thus, as of August 3, 2013, the Company is no longer offering the "Certificate in Information Technology with a specialization in Smart Home Integration" program. The termination of the "Smart Home Integration Certificate" program qualifies as a discontinued operation and accordingly the Company has excluded results for this component from its continuing operations in the consolidated statements of operations for all periods presented. The following table shows the results of the "Smart Home Integration Certificate" program component included in the income (in thousands)

Note 7. Convertible Notes and Debenture Payable

On February 25, 2012, February 27, 2012 and February 29, 2012, loans payable of \$100,000, \$50,000 and \$50,000, respectively, were converted into two-year convertible promissory notes, bearing interest of 0.19% per annum. Beginning March 31, 2012, the notes are convertible into common shares of the Company at the rate of \$1.00 per share. The Company evaluated the convertible notes and determined that, for the embedded conversion option, there was no beneficial conversion value to record as the conversion price is considered to be the fair market value of the common shares on the note issue dates. These loans (now convertible promissory notes) were originally due in February 2014, and have been included in current liabilities as of July 31, 2014 and April 30, 2014. Two of the above mentioned notes were modified in February 2014, see below and one is currently in default.

On February 18, 2014 the Company renegotiated the terms of one of the \$50,000 convertible notes, specifically the one dated February 27, 2012. The maturity date was extended to December 1, 2014 and the conversion price has been reduced to \$0.19 per share. The interest rate has been amended to 3.25% from February 27, 2012. This was treated as a note extinguishment in accordance with ASC 470-50. No gain or loss on extinguishment was recorded and no beneficial conversion feature existed on the modification date.

On February 28, 2014 the Company renegotiated the terms of the \$100,000 convertible note dated February 25, 2012. A payment was made in the amount of \$25,000 on February 28, 2014, reducing the principal to \$75,000. A nother principal payment of \$25,000 was made on August 1, 2014 and \$50,000 will be made on December 1, 2014. The interest rate was raised to 3.25% from February 25, 2012. The conversion price was reduced to \$0.19 per share. This was treated as a note extinguishment in accordance with ASC 470-50. No gain or loss on extinguishment was recorded and no beneficial conversion feature existed on the modification date.

On March 13, 2012, the Company's CEO loaned the Company \$300,000 and received a convertible promissory note due March 31, 2013, bearing interest at 0.19% per annum. The note is convertible into common shares of the Company at the rate of \$1.00 per share upon five days written notice to the Company. The Company evaluated the convertible note and determined that, for the embedded conversion option, there was no beneficial conversion value to record as the conversion price is considered to be the fair market value of the common shares on the note issue date. On September 4, 2012, the maturity date was extended to August 31, 2013. On December 17, 2012, the maturity date was extended to August 31, 2014. On September 25, 2013, as a term of the convertible Debenture issued as discussed further in this Note, the maturity of the debt to the CEO, has been extended to April 5, 2015. On July 16, 2014, the maturity of the debt to the CEO has been extended to January 1, 2016. There was no accounting effect for these modifications.

On August 14, 2012, the Company's CEO loaned the Company \$300,000 and received a convertible promissory note, payable on demand, bearing interest at 5% per annum. The note is convertible into shares of common stock of the Company at a rate of \$0.35 per share (based on proceeds received on September 28, 2012 under a private placement at \$0.35 per unit). The Company evaluated the convertible notes and determined that, for the embedded conversion option, there was no beneficial conversion value to record as the conversion price is considered to be the fair market value of the shares of common stock on the note issue date. On September 4, 2012, the maturity date was extended to August 31, 2013. On December 17, 2012 the maturity date was extended to August 31, 2013. On September 25, 2013, as a term of the convertible Debenture issued as discussed further in this Note, the maturity of the debt to the CEO has been extended to April 5, 2015. On July 16, 2014, the maturity of the debt to the CEO has been extended to January 1, 2016. There was no accounting effect for these modifications.

On September 26, 2013, the Company and an institutional investor (the "Institutional Investor") signed a Securities Purchase Agreement (the "Agreement") with respect to a loan of \$2,240,000 evidenced by an 18 month original issue discount secured convertible debenture (the "Debenture") with gross proceeds of \$2,000,000 prior to fees. Payments on the Debenture are due 25% on November 1, 2014, 25% on January 1, 2015 and the remaining 50% on April 1, 2015 as a final payment. The Company has the option to pay the interest or principal in stock subject to certain "Equity Conditions" such as giving notice of its intent 20 trading days beforehand. The Agreement provides that the Debenture may be converted at the holder's option at \$0.3325 per share at any time after the closing and subject to adjustments. The Company evaluated that for the embedded conversion option, there was no beneficial conversion value to record as the conversion price was greater than the fair market value of the common shares on the note issue date. Warrants with a relative fair value of \$389,565 were issued for 100% of the number of shares of common stock that could be purchased at the conversion price at closing or 6,736,842. The warrants have a five-year term and are exercisable for cash or public securities. The offering registration statement is in effect within 90 days of closing. The \$389,565 is recorded as a debt discount to be amortized over the debt term. The Debenture bears 8% per annum interest and are amortizable in installments over their term. The financing closed on September 26, 2013 and the Company received proceeds of approximately \$1.7 million, net of certain offering costs and loan fees. Payment of various debt issuance costs to the lender included an original issue discount of \$240,000 and cash loan fees of \$736,842. In 2014, the balance of the Debenture payable was \$1,911,572, which is the loan of \$2,240,000 less \$328,428 of unamortized original issue discount. The Debenture was paid on September 4, 2014. (See Note 11)

In September 2013 Company had entered into an engagement agreement with Laidlaw & Co-

On March 27, 2012 and on August 31, 2012, Aspen University provided the DOE with letters of credit for which the due date was extended to December 31, 2013. On January 30, 2014, the DOE provided Aspen University with an option to become permanently certified by increasing the letter of credit to 50% of all Title IV funds received in the last program year, equaling \$1,696,445, or to remain provisionally certified by increasing the 25% letter of credit to \$848,225. Aspen informed the DOE of its desire to remain provisionally certified and posted the \$848,225 letter of credit by the DOE on April 14, 2014. The DOE may impose additional or different terms and conditions in any final provisional program participation agreement that it may issue (See Note 2 "Restricted Cash").

The HEA requires accrediting agencies to review many aspects of an institution's operations in order to ensure that the education offered is of sufficiently high quality to achieve satisfactory outcomes and that the institution is complying with accrediting standards. Failure to demonstrate compliance with accrediting standards may result in the imposition of probation, the requirements to provide periodic reports, the loss of accreditation or other penalties if deficiencies are not remediated.

Because Aspen University operates in a highly regulated industry, it may be subject from time to time to audits, investigations, claims of noncompliance or lawsuits by governmental agencies or third parties, which allege statutory violations, regulatory infractions or common law causes of action.

Return of Title IV Funds

An institution participating in Title IV programs must correctly calculate the amount of unearned Title IV program funds that have been disbursed to students who withdraw from their educational programs before completion and must return those unearned funds in a timely manner, no later than 45 days of the date the school determines that the student has withdrawn. Under Department regulations, failure to make timely returns of Title IV program funds for 5% or more of students sampled on the institution's annual compliance audit in either of its two most recently completed fiscal years can result in the institution having to post a letter of credit in an amount equal to 25% of its required Title IV returns during its most recently completed fiscal year. If unearned funds are not properly calculated and returned in a timely manner, an institution is also subject to monetary liabilities or an action to impose a fine or to limit, suspend or terminate its participation in Title IV programs.

Subsequent to a program review by the Department of Education, the Company recognized that it had not fully complied with all requirements for calculating and making timely returns of Title IV funds (R2T4). In November 2013, the Company returned a total of \$102,810 of Title IV funds to the Department of Education.

Delaware Approval to Confer Degrees

Aspen University is a Delaware corporation. Delaware law requires an institution to obtain approval from the Delaware Department of Education (the Delaware DOE) before it may confer degrees and awards with the power to confer degrees. It requires an institution to apply for approval from the Delaware DOE before it may confer degrees and awards with the power to confer degrees. It requires an institution to apply for approval from the Delaware DOE before it may confer degrees and awards with the power to confer degrees.

Our revenues for the quarter ended July 31, 2013 were impacted by the 2011 (and previous years) pre-payment tuition plan, or the Legacy Tuition Plan, which was discontinued on July 15, 2011. The Legacy Tuition Plan had students pre-paying tuition for a degree program's first four courses (\$675/course) and a steeply discounted tuition rate for the program's eight course balance (\$112.50/course). Specifically, the Legacy Tuition Plan produced immediate cash flow, but unsustainably low gross profit margins over the length of the degree program. As of July 31, 2014, 488 of our full-time degree-seeking students were still enrolled under the Legacy Tuition Plan. However the contribution from Legacy Tuition Plan students to overall A s pen revenue and profits has diminished steadily as the population of full-time degree-seeking students paying regular tuition rates increased to 81% of the population and the population of Legacy Tuition Plan students fell to 19%. In fact Legacy Tuition Plan students' contribution to financial results was immaterial for the quarter ended July 31, 2014.

Cost of Revenues (exclusive of amortization)

The Company's cost of revenues consist of instructional costs and services and marketing and promotional costs.

Instructional Costs and Services

Instructional costs and services for the 2014 Quarter rose to \$269,833 from \$162,670 for the 2013 Quarter, an increase of \$107,163 or 66%. As student enrollment levels increase, instructional costs and services should rise proportionately. However, as A s pen increases its full-time degree-seeking student enrollments and related class starts, the higher gross margins associated with such students should lead to the growth rate in instructional costs and services to significantly lag that of overall revenues growth.

Marketing and Promotional

Marketing and promotional costs for the 2014 Quarter were \$170,265 compared to \$293,089 for the 2013 Quarter, a decrease of \$122,824 or 42%. This decrease reflects significant marketing efficiencies gained, specifically the fact that enrollment costs have dropped to \$557 from \$920 year-over-year. With the cash from our recently completed offering, we expect that beginning in November 2014, internet advertising expenses will increase by at least \$50,000 per month and sales expenses will increase by at least \$60,000 per month.

G A A P Gross Profit rose to 52% of revenues or \$604,572 for the 2014 Quarter from 38% of revenues or \$343,049 for the 2013 Quarter. Gross Profit (exclusive of amortization) rose to 62% of revenues or \$720,762 for the 2014 Quarter from 49% of revenues or \$445,440 for the 2013 Quarter, a year-over-year increase of \$275,322 or 62%. This 62% increase year-over-year primarily reflects the increase in new class starts and higher average tuition rates described above, as well as marketing efficiency improvements.

Costs and Expenses

General and Administrative

General and administrative costs for the 2014 Quarter were \$1,200,216 compared to \$1,476,767 during the 2013 Quarter, a decrease of \$276,551 or 19%. This decrease reflects significant cost savings in general and administrative expenses, primarily due to the reduction in the number of employees and the associated costs of salaries, benefits, and other personnel costs. Additionally, the company has implemented various cost-saving measures, including the reduction of office space and the consolidation of operations, which have contributed to the overall decrease in general and administrative costs.

Interest Income (Expense)

Interest income for the 2014 Quarter increased to \$1,671 from \$289 in the 2013 Quarter, an increase of \$1,382 or 478%. Interest expense increased from \$16,160 to \$260,871, an increase of \$244,711 or 1,514%. The increase is due to the monthly interest expense of \$13,333, primarily resulting from the amortization of the original issue discount and the amortization of debt issuance costs, all associated with the Debenture issue.

Income Taxes

Income taxes expense (benefit) for the 2014 Quarter and 2013 Quarter was \$0 as Aspen Group experienced operating losses in both periods. Aspen management made a full valuation allowance against the deferred tax assets stemming from these losses, there was no tax benefit recorded in the statement of operations in both periods.

Net Loss

Net loss for the 2014 Quarter was (\$864,261) as compared to (\$1,134,370) for the 2013 Quarter, a decrease in the loss of \$270,109 or approximately 24%. Contributing to this lower loss was the increase in revenues in the 2014 Quarter, lower marketing costs, lower payroll and lower consulting expenses. Included in these numbers are the Discontinued Operations results.

Discontinued Operations

As of August 4, 2013, Aspen Group discontinued business activities related to its agreement with CLS. See Note 1 of the unaudited consolidated financial statements contained herein. The following table details the results of the discontinued operations for the three months ended July 31, 2014 and 2013:

Non-GAAP – Financial Measures

The following discussion and analysis includes both financial measures in accordance with Generally Accepted Accounting Principles, or GAAP, as well as non-GAAP financial measures. Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position or cash flows that either excludes or includes amounts that are not normally included or excluded in the most directly comparable measure calculated and presented in accordance with GAAP. Non-GAAP financial measures should be viewed as

Net cash provided by discontinued operations	—	87,075
Net increase in cash and cash equivalents	<u>\$ 1,169,027</u>	<u>\$ (83,973)</u>

Net Cash Used in Operating Activities

Net cash used in operating activities during the three months ended July 31, 2014 totaled (\$385,707) and resulted primarily from a net loss from continuing operations of (\$864,261) offset by non-cash items of \$509,105, of which the \$125,608 in depreciation and amortization, \$124,343 of amortization of debt discount and \$105,511 of bad debt expense were the most significant, net, components.

On January 15, 2014, a warrant exercise offering was completed whereby 4,231,840 warrants were exercised at an exercise price of \$0.19 per warrant. The total proceeds received were \$804,049 and since the exercise price was discounted from the stated prices of either \$0.50 or \$0.3325, therefore a warrant conversion exercise expense of \$156,952 was recorded. This expense was calculated by comparing the value of the warrants before and after the reduced price.

Related to this, additional 5,178,947 new warrants were issued at \$0.19 per warrant as part of a price protection agreement with two investors.

On March 10, 2014, several members of the Board of Directors invested \$600,000 in exchange for 3,157,895 shares of common stock and 3,157,895 warrants at \$0.19 per share.

On July 29, 2014, in the first part of a two part private placement offering, seven accredited investors, including the company's CFO, paid a total of \$1,631,500 in exchange for 10,525,809 shares of common stock and 5,262,907 five-year warrants exercisable at \$0.19 per share. Aspen reimbursed expenses in total of \$75,000 related to this offering. As a result of this private placement, on July 31, 2014, Aspen issued 3,473,259 shares of common stock to prior investors who had price protection on their investments, issued 2,662,139 warrants to a prior investor who had price protection on their investment and reduced the exercise and conversion price on 14,451,613 outstanding warrants and its outstanding Debenture to \$0.155.

On September 4, 2014, Aspen raised \$3,766,325 from the sale of 24,298,877 shares of common stock and 12,149,439 five-year warrants exercisable at \$0.19 per share in the second part of a two part private placement offering to 15 accredited investors. In connection with the offering, Aspen agreed to register the shares of common stock and the shares of common stock underlying the warrants. The net proceeds to Aspen were approximately \$3.7 million. With the proceeds from this offering, we pre-paid the full principal owed and interest due under the Debenture (described above).

Liquidity and Capital Resource Considerations

At September 15, 2014, the Company had a cash balance of \$3.5 million. In September 2014, the company completed the second closing of its equity financing of \$3,766,325. With the additional cash raised in the financing, the growth in the company revenues and improving operating margins, the Company believes that it has sufficient cash to allow the Company to implement its long-term business plan.

Our cash balances are kept liquid to support our growing infrastructure needs. The majority of our cash is concentrated in large financial institutions.

Critical Accounting Policies and Estimates

In response to financial reporting release FR-60, Cautionary Advice Regarding Disclosure About Critical Accounting Policies, from the SEC, we have selected our more subjective accounting estimation processes for purposes of explaining the methodology used in calculating the estimate, in addition to the inherent uncertainties pertaining to the estimate and the possible effects on the our financial condition. The accounting estimates are discussed below and involve certain assumptions that, if incorrect, could have a material adverse impact on our results of operations and financial condition.

Revenue Recognition and Deferred Revenue

Revenue consisting primarily of tuition and fees derived from courses taught by Aspen online as well as from related educational resources that Aspen provides to its students, such as access to our online materials and learning management system. Tuition revenue is recognized pro-rata over the applicable period of instruction. Aspen maintains an institutional tuition refund policy, which provides for all or a portion of tuition to be refunded if a student withdraws during stated refund periods. Certain states in which students reside impose separate, mandatory refund policies, which override Aspen's policy to the extent in conflict. If a student withdraws at a time when a portion or none of the tuition is refundable, then in accordance with its revenue recognition policy, Aspen recognizes as revenue the tuition that was not refunded. Since Aspen recognizes revenue pro-rata over the term of the course and because, under its institutional refund policy, the amount subject to refund is never greater than the amount of the revenue that has been deferred, under Aspen's accounting policies revenue is not recognized with respect to amounts that could potentially be refunded. Aspen's educational programs have starting and ending dates that differ from its fiscal quarters. Therefore, at the end of each fiscal quarter, a portion of revenue from these programs is not yet earned and is therefore deferred. Aspen also charges students annual fees for library, technology and other services, which are recognized over the related service period. Deferred revenue represents the amount of tuition, fees, and other student payments received in excess of the portion recognized as revenue and it is included in current liabilities in the accompanying consolidated balance sheets. Other revenue may be recognized as sales occur or services are performed.

Accounts Receivable and Allowance for Doubtful Accounts Receivable

All students are required to select both a primary and secondary payment option with respect to amounts due to Aspen for tuition, fees and other expenses. The most common payment option for Aspen's students is personal funds or payment made on their behalf by an employer. In instances where a student selects financial aid as the primary payment option, he or she often selects personal cash as the secondary option. If a student who has selected financial aid as his or her primary payment option withdraws prior to the end of a course but after the date that Aspen's institutional refund period has expired, the student will have incurred the obligation to pay the full amount incurred prior to the date of withdrawal.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we may be involved in litigation relating to claims arising out of our operations in the normal course of business. As of July 31, 2014, there were no pending or threatened lawsuits that could reasonably be expected to have a material effect on the results of our operations and there are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our interest other than described below or previously reported.

On December 10, 2013, the Company filed a series of counterclaims against HEMG and Mr. Spada in state court of New York relating to the litigation which has previously been reported. The plaintiffs filed a motion to dismiss our counterclaims. By decision and order dated August 4, 2014, the New York court denied HEMG and Spada's motion to dismiss the fraud counterclaim the Company asserted against them. The New York court dismissed the related "money had and received", "money lent" and "unjust enrichment" claims as being duplicative of the fraud claim. The plaintiffs filed notice of appeal concerning the denial of that motion on September 3, 2014.

No members of the Compensation Committee or the Board shall be liable for any action or determination made in good faith with respect to the Plan or any Stock Right granted under it. No member of the Compensation Committee or the Board shall be liable for any act or omission of any other member of the Compensation Committee or the Board or for any act or omission on his own part, including but not limited to the exercise of any power and discretion given to him under the Plan, except those resulting from his own gross negligence or willful misconduct.

(a) The Options and SARs shall either be fully vested and exercisable from the date of grant or shall vest and become exercisable in such installments as the Board or Compensation Committee may specify.

(b) Once an installment becomes exercisable it shall remain exercisable until expiration or termination of the Option and SAR, unless otherwise specified by the Board or Compensation Committee.

(c) Each Option and SAR or installment, once it becomes exercisable, may be exercised at any time or from time to time, in whole or in part, for up to the total number of shares with respect to which it is then exercisable.

A leave of absence with the written approval of the Board shall not be considered an interruption of employment under the Plan, provided that such written approval contractually obligates the Company or any Related Corporation to continue the employment of the optionee after the approved period of absence.
